(b) the reasons as to how rule 30-A was applied on the Marketing Executive as stated in the referred questions on the absence since 12-3-89 (as stated) when the said rule was not even existing in the IDPL CDA Rules ;

(c) whether the C&MD issued the charge sheet as disciplinary authority under rule 25 and not under rule 30-A when the later was already in force and existing in the rules book of IDPL; if so, the reasons therefor ;

(d) what action Government propose to take against IDPL for providing misinformation to the above mentioned replies ;

(e) whether Government would consider to conduct a thorough probe in to this case as the replies given to the questions asked are vague ;

(f) if so, whether the probe would be conducted by an independent and impartial party ; and

(g) if not, the reasons therefor ?

THE MINISTER OF STATE IN THE MINISTRY OF CHEMICALS AND FERTILIZERS (SHRI EDUARDO FALEIRO) : (a) to (g) The question relates to a former Marketing Executive of IDPL whose services were terminated by the company in accordance with the provisions of Conduct, Discipline & Appeal Rules of the company. For employees below the Board level, Government is neither the Appointing, Disciplinary, Appellate nor the Reviewing Authority and as such the Government does not intervene in the service matters of such employees of the public sector undertakings.

The company has reported that the said employee had filed a Writ Petition in the Hon'ble Delhi High Court against the disciplinary proceedings initiated against him by the management and the writ petition was dismissed by the Hon'ble Delhi High Court. While dismissing the petition, the Hon'ble Delhi High Court observed "The petitioner has been unauthorisedly abstaining himself from joining since March, 1989. This is nothing short of indiscipline. In these circumstances, we are not inclined to interfere. Dismissed."

Aggrieved by these orders of the High Court, the petitioner filed two Special Leave Petitions in the Hon'ble Supreme Court of India which were also rejected.
